LET US HAVE LIGHT

And Water-A Splendld Opportunity for the Twin Cities. 4 - 1 TA

THE HERALD editor this morning had an interesting conversation with Civil Engineer John T. Smith, who will construct a system of water-Prownsville and Matamoros, if satisfactory arrangements can be consummated. Should such an agreement be made, the plant that it ha proposed to put it here will be the equal in efficiency of any plant in the United States. Mr. Smith says the company he represents propose putting in a central station equipped with all the necessary modern apparams to generate two thousand 18 candle power incandescent lights for fighting the residences and business The steamer Morgan is advertised houses of the two cities, and also to sail from Morgan City on next one dynamo generating fifty are lights of 2000 candle power for lighting the streets of the two cities. Mr. Smith estimates that the system will furnish our citizens with cool, safe, convenient and efficient lights' at such rates as to be as cheap, if not vehicate of electric lights, saving

Smith says, it will have a pumping Toledo, Ohio.-Laredo Times. capacity of one and a half million gallons per day. The water will be purified in settling basins before being pumped into the mains and standpipe. The stand-pipe is to be racing and other diversions during of such size as to furnish sufficient self-addressed stamped envelop.
